Sales Pitch

Sales Pitch

Our business goal is to increase our vehicle sales and rental rates, in order to achieve this we are re-branding our company and re-designing our website.

Our target audience is everyone who is looking for a new ride, people who need a new vehicle. Our main target audience is people who finished or currently continuing their post-secondary education, with a high income.

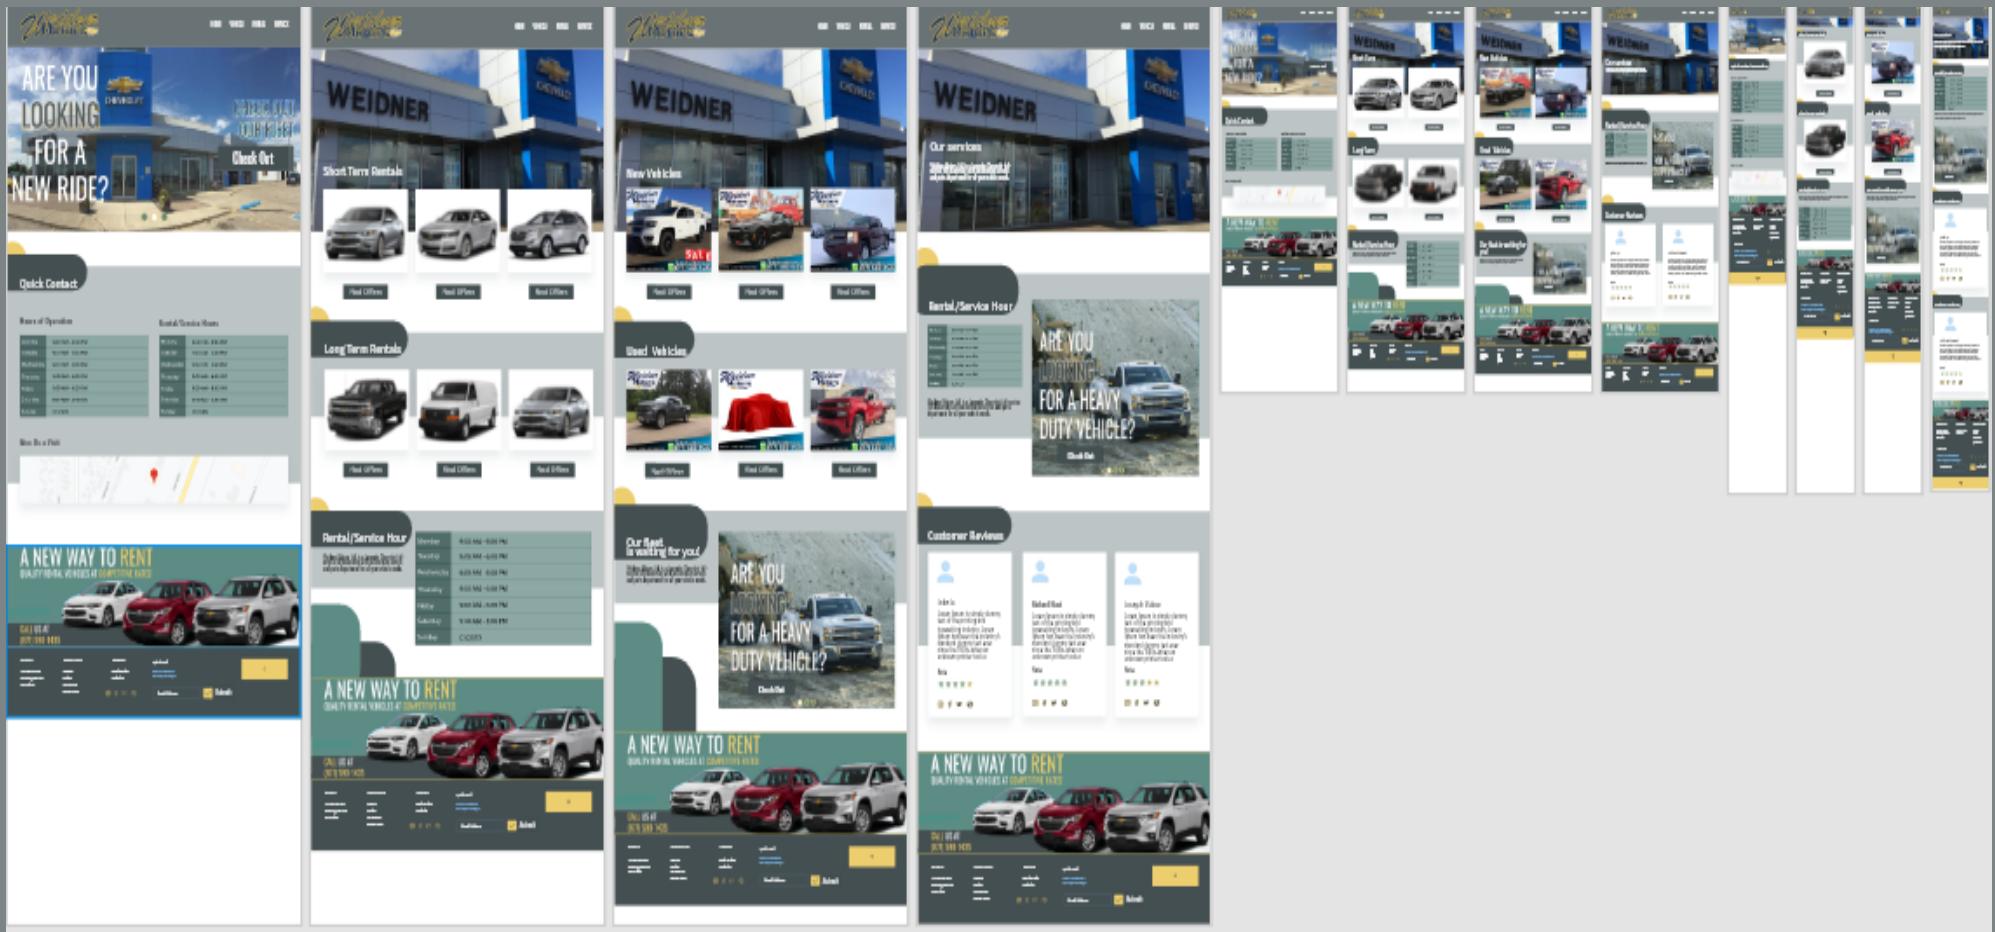

The website that we are currently building is fully responsive, in order to meet today standard.

We tried giving the viewers the impression of trust and safety as well as keeping our modern look. We tried to keep it simple and easy to maneuver as much as possible.

The design path we choice was based on the look we want to achieve which is a trustworthy car dealership that keeps their customers safety above all.
